

SKETCH DETAILS LIST
July 2021

Sketch Details List species are considered less rare in New Mexico than Review List species, but for which at least sketch details and/or a photo sufficient to identify a species and to distinguish it from similar species are requested. Many Sketch Details species were formerly on the Review List, and continued accurate documentation of occurrence is desirable as we continue to define their status in the state.

Documentation may be in the form of written details or copies of reports or field notes; photos (preferably jpegs) and/or audios are requested, if available. Documentation materials should be sent to S. O. Williams: email (preferred contact method) sunbittern@earthlink.net (street address: 1819 Meadowview Drive NW, Albuquerque, NM 87104).

Ducks, Geese, and Swans

Tundra Swan
Greater Scaup
Surf Scoter
Barrow's Goldeneye

Grouse

White-tailed Ptarmigan

Doves, Cuckoos
