FROM THE PRESIDENT

Steve West

I was elected President of the New Mexico Ornithological Society at the 1987 meeting held in Carlsbad last May. I first joined the NMOS at an Albuquerque meeting on 16 May 1964, and have been a member since that time. During those 23 years, I have seen a lot happen with the Society; others who have lived closer to the Society's center of activity have seen much more. A statewide ornithological society in one of the largest (314,923 sq km; 5th in size) but least densely populated (37th in population density) states in the nation would almost inevitably have a rough time surviving.

All of us have seen the Society go through various stages of activity and inactivity, although generally something has been happening. The Society is run by a group of volunteers who receive no remuneration for their work, any of whom would probably rather be out chasing birds than chasing down people to submit records for the Field Notes, send in dues, or submit articles for the Bulletin.

Lately, several officers of the Society have had to field questions from long-time members wondering what is happening to the NMOS: no Field Notes, no Bulletin, no notice of annual meetings. I as well as anyone know all of this to be true. For example, I never even received a notice for the spring meeting which was to be held here in Carlsbad. Other members began contacting me with questions that had come about after they had received and looked over their notices. A phone call to our able Treasurer, Ross Teuber, got a copy of the meeting announcement for me (and added my correct address to the mailing list).

The truth is that, yes, the Society has been very inactive of late. I want to change that but it won't be easy trying to do so all the way from Carlsbad. Toward that end, however, a few positive things have happened that I feel will help to get us back on track. A set of Field Notes has been published after a very long absence of such. Another set is making the rounds to the various editors and will, hopefully, be out before long. This issue of the Bulletin is the first to come out in a much longer time; Dr. Sartor O. Williams III has agreed to serve as Bulletin Editor. Les Hawkins has agreed to be in charge of the spring meeting to be held next March in Albuquerque. Paul Steel and Ross Teuber have spent many hours bringing the membership list up to date. There is a lot to be done and a lot that hasn't been done, but there are good indications that this is beginning to change. If you would like to help make the Society work, volunteer to work. We'll find something for you to do.

FROM THE EDITOR

Sartor O. Williams III

When I became a member of the NMOS, back in 1982, the Bulletin and the Field Notes seemed to arrive on a fairly regular basis. Over the past couple of years, however, the Bulletin essentially ceased publication. When I began inquiring into what had happened to the Bulletin and asking if there was anything I could do to help I was offered the job of Editor. (There may be a lesson there, somewhere...) Anyway, in late August I accepted the job, and so with this issue I assume the editorship of the NMOS Bulletin.

My first priority is to get the Bulletin back on schedule, i.e., four issues per year, published on time. You're holding 1986 (Vol. 14, Nos. 1-4) in your hands. If all goes well, 1987 (Vol. 15) will be published, possibly in two issues, before the end of this year. We can then enter 1988 essentially "caught up," and can look forward to four full issues for Vol. 16.

I will provide more detailed instructions for Bulletin contributors in a future issue. In the meantime, however, we should all keep in mind that the NMOS is an ornithological society, and that the Society's Bulletin is the proper place for papers dealing with New Mexico ornithology. Of particular

interest are articles describing changes in the distribution and/or status of New Mexican birds, details of significant state records (including nesting records), summaries of banding studies and nesting studies, and analyses of Christmas Bird Counts and other censuses. Other topics of interest include field identification articles (how many of you out there really can, with confidence, separate the two ravens?), notes on interesting behavior, and locality articles describing areas that are ornithologically unique in New Mexico. Notes relating to conservation, particularly of endangered, rare, or otherwise unusual New Mexican birds (and their habitats) are also welcome.

The "News and Announcements" section is intended to be a regular feature. I hope that this section will be used as an open bulletin board for the interchange of information relating to New Mexican birds, such as notices of meetings, notices of studies planned or in progress, and requests for assistance or information.

But the main point I want to get across right now, however, is that the NMOS in general, and the Bulletin in particular, are alive and well. Let us hear from you!

MINUTES OF THE 1987 SPRING MEETING

Bo West

The annual meeting of the New Mexico Ornithological Society was held in Carlsbad on Saturday, 9 May 1987. The meeting was called to order by Acting President Ross L. Teuber. The Nominating Committee presented their slate of officers; the slate was elected by acclamation. New President Steve West presided over the remainder of the meeting, which consisted of a papers session.

SPRING MEETING BIRD SIGHTING REPORT

Mike Medrano

At the recent spring meeting in Carlsbad, 9-10 May 1987, participating NMOS members reported 118 species for the two-day period. The species total for Saturday alone was 94; that for Sunday alone was 91. Areas covered included Carlsbad, Rattlesnake Springs, Lake McMillan, the salt lakes east of Loving, and the desert areas south of Malaga. Particularly noteworthy was a Pacific Loon, which was photographed. A complete list is available from Mike Medrano (1433 Smedley Rd., Carlsbad, NM 88220) or from the Editor.

***** JOIN THE NMOS *****

Membership in the New Mexico Ornithological Society is open to anyone with an interest in birds. Your yearly membership brings you four issues of the Bulletin and four issues of the Field Notes, informs you of annual meetings, and provides opportunities for you to publish your articles and observations. Memberships are for a calendar year (1987 is due NOW). Please join or renew at one of the following membership rates: Single \$7.50, Family \$10.00, Student \$3.50, Supporting \$30.00, Life \$300.00. Checks should be made payable to the NMOS and sent to the Treasurer, Ross L. Teuber, 1612 Kentucky NE, Albuquerque, NM 87110. If the Society is to remain solvent, it must have your support!

***** JOIN THE NMOS *****

DIERCTORY OF NMOS MEMBERS, 1985-1987

The following directory denotes the membership of the New Mexico Ornithological Society for 1985, 1986, and/or 1987. The code after each address indicates membership category and the year through which membership has been paid. Persons and institutions who have not already done so are invited to renew for 1987 NOW, at one of the following membership rates: Single \$7.50, Family \$10.00, Student \$3.50, Supporting \$30.00, Life \$300.00. Dues are for a calendar year. Checks should be made payable to the NMOS and sent to the Treasurer, Ross L. Teuber, 1612 Kentucky NE, Albuquerque, NM 87110. Also contact Ross if your address has changed or if your address is otherwise incorrect as printed here.
